

# Karan Kumar Kamat

Computer Engineering Student with an Interest in Software Engineering. Aspiring developer passionate about technology and problem solving. Currently enhancing my skills through Youtube courses with a focus on building a solid foundation in programming and data structures. I enjoy tackling complex challenges, continuously learning new concepts, and turning ideas into practical applications. Looking forward to connecting with like-minded individuals and exploring opportunities in software development.

## WORK EXPERIENCE

### PopMitra

Founder and Developer

September 2025 - Present

- **PopMitra** is an AI-powered project I built myself to help social media users improve their content performance. It uses advanced artificial intelligence to generate eye-catching titles, engaging descriptions, and trending hashtags — all designed to boost post visibility, engagement, and reach. This project showcases my work in integrating AI with practical tools for creators and marketers

## EDUCATION

### Adarsha Secondary School

High School Diploma, Computer Engineering

2022 - 2025

### Jeevan Bikash Public School

Boards - 3.10

2007 - 2022

### Sarvodaya Higher Secondary School

HSEB, Education - 3.15

2023 - 2024

## PROJECTS

### PopMitra [🔗](#)

September 2025 - Present (3 months)

- PopMitra is an AI-powered tool that helps social media users instantly generate catchy titles, engaging descriptions, and trending hashtags for their posts.

### Awasar Job Center and Service Center [🔗](#)

2025

- Designed and developed Awasar Job Center, a cutting-edge web platform leveraging AI and web development expertise to facilitate seamless connections between job seekers and employers.
- Created a user-friendly job posting and discovery platform utilizing AI and web development skills, enhancing the job search experience for users.

### Daily Track [🔗](#)

- Developed Daily Track, a cutting-edge task management tool leveraging AI and web development expertise to deliver a seamless user experience.
- Utilized AI and web development skills to craft a user-friendly interface for Daily Track, empowering users to optimize their daily productivity and task management.

### RedCoder Lab's [🔗](#)

- Founded RedCoder Labs, a pioneering digital solutions provider leveraging AI and web development expertise to deliver cutting-edge websites, tech services, and programming education.
- Established RedCoder Labs as a trusted partner for businesses and individuals seeking to thrive online through innovative digital solutions and expert tech services.

## SKILLS

---

- Web Development
- Backend / Database
- AI & Automation
- Testing & Debugging
- Version Control
- Cloud & Deployment
- Cybersecurity Basics
- Project Management & Planning
- MERN Stack

## CERTIFICATE

---

### Bring Ai to Workshop [↗](#)

Learned how to apply AI tools across common software like PowerPoint, Excel, and Word to enhance productivity and efficiency.

### Data Science and AI Bootcamp [↗](#)

Completed a 15-hour workshop covering Python programming, data collection & cleaning, and data visualization, gaining hands-on experience in data science and AI fundamentals.

### DSA with Java [↗](#)

Studied and mastered all core topics in Data Structures and Algorithms using Java

### MERN Stack Developmet

Learned end-to-end web development using MongoDB, Express.js, React, and Node.js, including building full-stack web applications

## LANGUAGE

---

**English** Advanced

**Nepali** Advanced

**Hindi** Advance

**Maithili** Superior

## PERSONAL STRENGTH

---

- Honest & Trustworthy
- Punctual & Disciplined
- Dedicated & Hardworking
- Goal-Oriented
- Eager Learner & Knowledge Sharer

## HOBBIES

---

- Coding
- Continuous Learning
- Traveling.
- Exploring AI & New Technologies
- Video Editing
- Listening to Music
